

LA Rectangular without radius

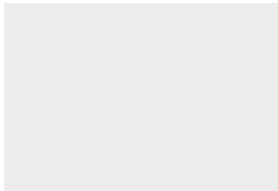

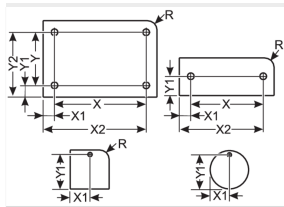

Product information

The laser has served us well for years, especially for engraving and labeling of metals.

Laser Aluminum (LA) can be marked with high contrast, durable, precise, legible and fast with Murrplastik laser systems.

Custom configuration
Various colours
Different geometries and holes
Three different carrier materials available

A suction and filter unit is absolutely necessary to comply with legal regulations on health protection.

Material properties

Aluminium anodised (ALU) |

LA Rectangular without radius

Adhesive properties

467, 5016 SK adhesive film with adhesive, SKS adhesive film with foam adhesive

Thermal properties

Temperature / temperature range -40 °C – 140 °C / short term: 200 °C

Fire properties

Fire classification V0

General technical data

° Standard product, available from stock

Industry standard color deviations possible

Labelling technology

Laser
